

Trade Notification in mobile MT4 terminal

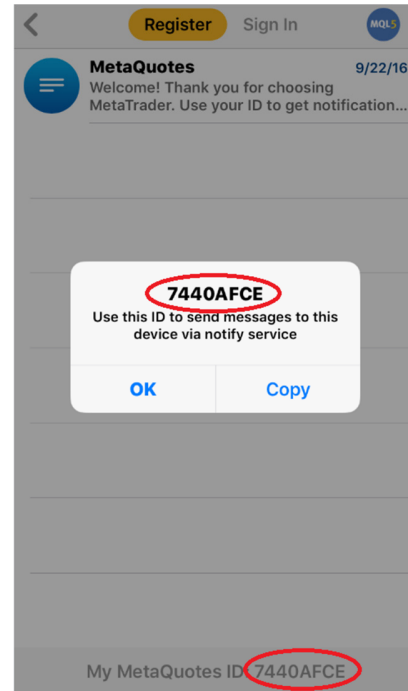

To enhance the cybersecurity of your online trading account, you are strongly advised to set up MetaQuote ID and enable instant push notification in mobile devices to receive account notifications, including trade execution, account deposit and withdrawal.

MetaQuotes ID is a unique user ID from MetaQuotes Software Corp. which could only be obtained from mobile apps platform.

To set up:

Please go to "Setting" → "Messages", the ID will then be shown at the bottom.

With the MetaQuotes ID, you will receive push notification in mobile devices after register the ID in your PC terminal. As the notifications deliver directly from MetaQuotes server without third-party applications, they are delivered instantly and cannot be lost. This provides extra account security to allow you receive instant updates of the trading account status, including but not limited to trade execution notification.

To activate the Trade Execution notifications:

Go to your PC terminal, select "Tools" → "Options" → "Notifications". Enter your MetaQuotes ID generated from your mobile platform, then tick both "Enable Push Notifications" and "Notify of trade transactions".
